

# Healthcare Performance Transformation

*A cultural commitment that boldly reimagines healthcare organizations for long-term improvement and growth.*

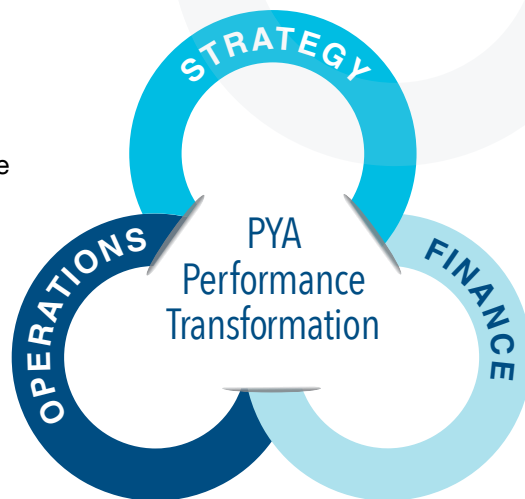

## Finance, Strategy, and Operations Align to Advance Patient Outcomes and Financial Sustainability

### Our Philosophy

In today's highly volatile healthcare landscape, providers are challenged to constantly adapt. You need a flexible, responsive, and systematic approach to achieve organizational success while delivering excellent patient care.

PYA's approach is beyond transactional. It is comprehensive, relational, and responsive to today's challenging financial landscape and patient expectations.

Our team leverages diverse expertise to develop unique approaches informed by listening and learning. PYA approaches Performance Transformation through the lens of partnership, ensuring you are armed with the resources and structure you need to shepherd your teams successfully through organizational transformation. **We believe in doing this important work *with* you, not *to* you.**

### The Results

Performance Transformation results can lead to:

- Improved quality and patient outcomes
- Financially sustainable operations
- Increased capital accessibility
- Process-driven, hard-wired solutions
- Enhanced flexibility and capability
- Ability to leverage innovative tools and approaches
- Opportunity to improve value-based reimbursement through enhanced quality and efficiency
- Amplified brand loyalty

## PYA Performance Transformation Approach

- We work in partnership with your stakeholders and teams.
- We help define your desired future state and design ways to achieve it.
- We consider cross-functional operational impacts to avoid unintended consequences.
- We identify and hard-wire improvement opportunities through a process-driven approach.
- We develop methods to help you measure and continually improve your new operational strategies.
- We provide guidance, support, and project management that complement your internal resources.

## Your Commitment

Performance Transformation requires enterprise-wide coordination and acceptance. Success will be determined by an organization's:

- Dedication to improved outcomes and quality
- Pursuit of operational excellence
- Culture of continuous improvement
- Planning for financial sustainability

## Partner with PYA

With over 40 years of service to leading healthcare organizations across the nation, the PYA Performance Transformation Team includes experts in compliance, finance, health system executive leadership, managed care, medical staff relations, operations, organizational planning, payer and provider network development, physician practice operations transaction advisory, and much more.
